## Mary Ann Matthews

### Certified Graphoanalyst

A certified handwriting analyst since 1994, Mary Ann Matthews is the owner of handwriting.ca. Having a background in Human Resources as the Staffing Coordinator for a major real estate developer, Mary Ann's area of expertise is in compatibility issues – whether it's learning about that new person in your

life, hiring a nanny for your children, hiring a new employee, building a team, or finding out why a person gets along better with some people rather than others.

Mary Ann gives workshops, seminars, presentations and keynote speeches. Over the past 17 years, Mary Ann has spoken to a wide variety of audiences. She often is quoted as saying, "It doesn't matter if we print or write. That trail of ink that we leave as our pen travels across the page really does tell our story." Mary Ann has made radio and TV appearances on Toronto Life, Talk Local, EZ ROCK 97.3, Riley, Neighbour to Neighbour, the Erin Davis Show, Chat TV, Dufferin-Peel Living, Daytime TV Show, City Magazine, and Girlz TV.

Published articles include 'The Candidates' Scrawl Tells All', 'Different Strokes', and 'Can the Pen Be Mightier than a Real Job Interview?' which have appeared in The Globe & Mail; 'Key Signatures' in The Winnipeg Free Press; 'Handwriting – It's Really 'Brain' Writing' in Business Woman Canada and The Good Life. Mary Ann has a chapter about herself in a book entitled 'The Courage to Succeed'. Articles on handwriting analysis are currently appearing in Women with Vision magazine.

Not limited to writing strictly about graphology, Mary Ann acted as manuscript developer for the book, 'Tales from the Trenches – What You Ought to Know about Selling Your Business.'

Mary Ann is a former Director with the Mississauga Board of Trade and current co-president of the Ontario Chapter of Graphoanalysts.

Proud recipient of the 2010 International Graphoanalysis of the Year Award, Mary Ann teaches introductory, basic and advanced classes in handwriting analysis. In addition, Mary Ann volunteers her handwriting analysis services to several fund-raising organizations.

# The Compatibility Challenge!

**At home, in the workplace, and beyond.**

It's no secret that we are all different. Many times we may shake our heads in wonder as to why some people act and say the things that they do.

In order to achieve a better understanding of ourselves, our family members, friends, and the people in our lives, it is important to become aware of the different types of behaviour that we encounter every day. Everyone has a different model of the world and these differences become clear very quickly through the handwriting or printing that we produce.

If you are interested in learning how to spot compatibility issues in the handwriting or printing that we produce, then this workshop is for you. Together we will discover a lot of character traits that answer the following questions:

- **Do you have gremlins that chatter in your ear, keeping you awake at night?**
- **Am I sending out positive or negative signals?**
- **Why do some people act the way they do?**
- **Is anyone listening to me?**
- **Who are the sensitive ones?**

At the end of this workshop, you will have the answers to these questions and many more. You will be able to maximize your ability to get along with others and reduce conflicts.

“...that trail of ink that you leave as your pen travels across the page really does tell your story...”
